Software Engineer

Mohammad Ahmad | 0543812415 | mohammadahmadwork@gmail.com | LinkedIn | GitHub | Portfolio

Summary

- Software Engineer, hold B.Sc. degree in Information Systems Engineering with **GPA 80**, With Experience in Development and Deployment.
- Experienced in delivering end-to-end software solutions, from requirements gathering and system design to development, testing, and deployment.
- **Professional Development:** Earned AWS, Azure, and GitHub certifications; built personal projects across web, mobile, and systems development; and contributed to open-source projects.
- **Experienced and high skilled with:** C#, .NET, SQL, NoSQL, C++, Java, Python, RESTful APIs, Cloud AWS, GitHub, Git**,** System design, React, Flutter, Solid Principles, Docker, AI Agents, AI-Assisted Development.
- **Certifications:** AWS Certified Cloud Practitioner | Azure Fundamentals (AZ-900) | GitHub Foundations.
- Strong problem-solving skills, adaptability, and a commitment to continuous learning and writing maintainable software.

Work Experience

2025-present: Software Engineer - Portfolio.
Key role:

- **Requirements & System Design:** Collaborated with clients to gather requirements, understand business workflows, and translate needs into technical solutions.
- **Development:** Designed, developed, tested, and deployed production-ready applications, focusing on maintainable code, system design, and real-world business requirements.
- **Cloud & Integrations:** Worked with AWS, GCP, Firebase, Docker, REST APIs, and external SMS and email services, and AI coding agents with custom skills and Agents.
- **Technical Problem-Solving:** Designed application workflows, made technical decisions, and implemented solutions to address real-world business challenges.

Personal Projects

- Personal Projects – GitHub
  Built software projects across web, mobile, and systems development, including web servers and command-line tools. Focused on software architecture, system design, database integration, and end-to-end implementation, testing, and documentation.
- **Open-Source Contributions:** Contributed to ***faker-cxx***, a C++ library for generating realistic test data. Implemented new Features and data generators, added unit tests, fixed bugs, and improved documentation.
  Tech stack: C++

Education

2022-2026: B.Sc. Information Systems Engineering - Ramat Gan Academic College, GPA 80.
Courses: Algorithms, Data Structures, Operating Systems, Object-Oriented Programming (OOP), Databases, Cloud Computing.

Training and Certifications

2026: AWS Certified Cloud Practitioner — AWS | Credential
2026: Microsoft Certified: Azure Fundamentals — Microsoft | Credential
2025: GitHub Foundations Certification — GitHub | Credential
2025 - 2026: AWS re/Start – Amazon Web Services Cloud Practitioner Training.
Learning: Training in AWS cloud services, Linux, Python, networking, scripting, and security, with hands-on practice in cloud infrastructure and troubleshooting.

Languages: English- Fluent | Arabic-Native| Hebrew-proficient
